DETAILED ACTION

1. Applicant's amendment, filed 04/03/06 is acknowledged.

Claims 1-34 are pending.

Restriction

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted:

- I. Claims 1-14 are drawn to an in vitro method for analyzing a sample from a mammal.
- II. Claim 15 is drawn to a diagnostic kit.
- III. Claim 16 is drawn to a method for diagnosing and/or prognosing cardiovascular diseases.
- IV. Claims 17-26 are drawn to an in vitro method for isolating BMPs and or BDPs.
- V. Claims 27, 28 and 31 are drawn to a BMPs or BDPs and a pharmaceutical composition, comprising said cell.
- VI. Claims 29 and 30 are drawn to a method for producing a pharmaceutical composition, comprising a BMPs or BDPs.
- VII. Claims 31 -34 are drawn to a method for treatment of a cardiovascular disease.

3. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

As was also found in the International Search Report, the Invention of Group I was found to have no special technical feature that defined the contribution over the prior art of Vasa et al (IDS).

Art Unit: 1644

Vasa et al., teach an in vitro method analyzing a sample from a mammal in connection with cardiovascular disease.

Since Applicant's Inventions do not contribute a special technical feature when viewed over the prior art they do not have a single general inventive concept and so lack unity of invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michail Belyavskyi whose telephone number is 571/ 272-0840. The examiner can normally be reached Monday through Friday from 9:00 AM to 5:30 PM. A message may be left on the examiner's voice mail service.
